## Description

### GigE camera with CMOSIS CMV300 sensor

Mako G-030 is an industrial GigE camera with CMOSIS CMV300 sensor. Mako cameras have the same compact form factor and the same mounting positions as many analog cameras. All models include PoE, three optocoupled outputs, and a 64 MB image buffer. The image quality profits from the precisely aligned sensors.

#### Options

- Various IR cut/pass filters, protection glass
- White medical housing
