36X Day & Night WDR 650TVL PTZ Camera (Outdoor)

www.meritlilin.com

The IPS8364/IPS8368 is 36X Day & Night WDR 650TVL PTZ Dome IP Camera. The high-speed dome is capable of streaming HD video at up to 30 FPS. Featuring LILIN's Wide dynamic Range (WDR) feature, the IPS8364/IPS8368 captures highlights and shadows simultaneously, eliminating pixilation and smear. Combine this with 3D Noise Reduction technology and adaptive tone reproduction and the contrast of images in bright or dark areas is dramatically improved. Capable of making 360° continuous rotations, users can accurately position the camera to identify specific targets.

PTZ Control Function

Pan-Tilt-Zoom (PTZ) cameras are able to perform remote directional and zoom control. Capable of making 360° continuous rotations and 120° tilt angle, the cameras field of view can be quickly zoomed and repositioned as needed to identify specific targets

36X Optical Zoom

Remote pan/tilt/zoom operations with 36X optical lens makes it possible to zoom in on distant object with absolute clarity

Video Security App

Available on Android and iOS – **LILINViewer** app provides security alarm push notification, real-time live viewing, and remote video playback

Day and Night Operations via Removal of the IR-cut filter

IPS8364N / 8368N / 8364P / 8368P camera was designed using a mechanical IR cut filter for increased IR sensitivity resulting in improved night time images.

The removable IR-cut filter allows day and night operations even in the low lux condition providing outstanding vision

Privacy Zone

Privacy Zone is a feature used to protect personal privacy by concealing private areas in the camera's field of view. Doorways and house windows for example are not subject to surveillance

Motion Detection

Detect motion and capture the event. Motion in the selected area will provoke an alert

Wind and Rain Standards

Meet international IP66 standards for dust and moisture resistant allowing you to install cameras in environments subject to wind and rain

Two-way Audio Support

With 2-way audio communication, you can project your voice through the camera's speaker instead of hearing what's going on (1-way audio)

ONVIF-compliant

Open Network Video Interface Forum (ONVIF) is a standard for physical IP based security products. IPS8364N / 8368N / 8364P / 8368P PTZ camera is ONVIF Profile S conformant

Wide Dynamic Range (WDR)

Wide Dynamic Range (WDR) displays details of both the brightest and darkest areas. WDR can extend image visibility under high contrast lighting scenes and improve image quality

Alarm Detection

Alarm Detection is designed to provide the electronic detection of intruders

Noise Reduction

Remove noise from a signal. Suppressing noise in an image in low light conditions and able to retain quality videos at the same time

Back Light Compensation

Back Light Compensation (BLC) adjusts the exposure of the entire image to properly expose the subject in the foreground. No matter if the main object is moving toward left, right, upper, lower, or any location in the screen, BLC provides perfect exposure for an object in front of strong back light

IK10 Impact Resistant

IK10-certified housing designed to protect the camera from destructive behaviour
