

L series | IP bullet camera

# LR7424X / LR7428X

# Outdoor Waterproof Vari-focal IR IP Bullet Camera

www.meritlilin.com

The L series cameras are your economical choice for small and medium sized businesses. LR7424X/7428X in the L series is featuring built-in Sense Up+ technology to deliver stunning video in low light conditions. Utilizing intelligent image signal processing, 2D WDR function, AGC control, and 3D Noise Reduction, the combination successfully delivers the ultimate low-light image without motion blur. The IP66-rated housing is designed to help the camera body withstand rain and dust and ensures operation under a multitude of harsh weather conditions. Also support with PoE, white balance, and minimum illumination 0.1 lux at F1.4 Low Light Mode.

- Outdoor Bullet Camera
- IR cut filter for day/night operations
- IP66 rain and dust resistant
- ▶ 45-metre infrared night vision
- ▶ 1080p resolution

**Dimensions: (unit: mm)** 

Body: 121.5(W) x 109(H) x 231(D); Bracket: 160(L)

#### Diagram of mounting holes: unit in mm

#### **Built-in IR Illumination**

LR7424X/LR7428X IP camera with infrared (IR) illumination where IR LEDs are built-in. Built-in with IR LED, the camera provides night vision up to 45 metres

#### **ONVIF-compliant**

Open Network Video Interface Forum (ONVIF) is a standard for physical IP based security products. LR7424X/LR7428X camera is ONVIF Profile S conformant

#### **Video Security App**

Available on Android and iOS – **LILINViewer** app provides security alarm push notification, real-time live viewing, and remote video playback

#### Day and Night Operations via Removal of the IR-cut filter

LR7424X/LR7428X camera was designed using a mechanical IR cut filter for increased IR sensitivity resulting in improved night time images. The removable IR-cut filter allows day and night operations even in the low lux condition providing outstanding vision

#### **SD Cards in Sync with NAV Software**

LR7424X/LR7428X camera with built-in Micro SD/SDHC card slots can provide redundant video viewing and recording. You can synchronize an SD card with LILIN VMS (Video Management Software) – Navigator (NAV)

#### Sense Up+

Deliver outstanding video outputs in poor light conditions without experiencing motion blur. You can see video clearly even during nighttime without sufficient lighting support

#### **Wind and Rain Standards**

Meet international IP66 standards for dust and moisture resistant allowing you to install cameras in environments subject to wind and rain

#### **Two-way Audio Support**

With 2-way audio communication, you can project your voice through the camera's speaker instead of hearing what's going on

#### **3D Noise Reduction**

Remove noise from a signal. Suppressing noise in an image in low light conditions and able to retain quality videos at the same time

### Wide Dynamic Range (WDR)

Wide Dynamic Range (WDR) displays details of both the brightest and darkest areas. WDR can extend image visibility under high contrast lighting scenes and improve image quality

# **Alarm Detection**

Alarm Detection is designed to provide the electronic detection of intruders

#### **Privacy Masking**

Privacy Masking is a feature used to protect personal privacy by concealing private areas in the camera's field of view. Doorways and house windows for example are not subject to surveillance

## **Motion Detection**

Detect motion and capture the event. Motion in the selected area will provoke an alert.

### **Audio Detection**

With Audio Detection technology, an alarm is triggered based on ambient sound conditions as the threshold
